## NEW!

We added new courses to the high school catalog this year. These courses are marked "New" on the following pages.

### SUMMIT CURRICULUM

The Summit Curriculum takes K12's award-winning curriculum to new heights and transforms learning by providing an inviting, intuitive, and informative experience that inspires results through rich and engaging course content, differentiated instruction, and standards and assessment mastery support, while also providing teachers with the data visibility and efficiencies they need to effectively drive instruction. The high school courses available this school year are Algebra I, Geometry, Algebra 2, and English 9-10.

### MORE K12 ENHANCEMENTS

In K12 core courses, topics are broken into discrete modules that are taught in tandem with the framework students need to develop strong study skills. Rich, engaging content with interactive demonstrations and activities help students absorb and retain information.

In K12 comprehensive courses, students do more extensive writing and research projects, and tackle problems that require more analytical thinking. Course projects and activities also demand more independent thinking and self-discipline than projects in Core courses.

K12 honors courses hold students to a greater degree of accountability, and demand even greater independence and self-discipline. Students synthesize and evaluate information and concepts from multiple sources and read texts typically assigned in college-level courses. Students also demonstrate college-level writing in essays that require analysis of primary and secondary sources, responsible use of evidence, and comprehensive citation of sources.

K12 AP® courses are college-level courses that follow curriculum specified by the College Board. These courses are designed to prepare students for success on AP® Exams, providing students the opportunity to earn credit at most of the nation's colleges and universities. Our AP® courses include a companion AP® Exam Review course that provides practice for multiple choice exams, and essay writing as well as provides students an individualized study plan based on their results.
